Israel planned Iran strike during unrest: Report

Israel reportedly had plans to attack Iranian nuclear facilities during the post-vote turmoil in the country.

As Iran was grappling with the post-election unrest, Israel was reportedly preparing to strike the country's nuclear facilities, a US diplomatic source says.

According to the US diplomat who is based in Jerusalem (al Quds), Israel asked the US administration for a green light to attack Iran's nuclear facilities and its other vital structures in the aftermath of the country's post-election turmoil.

The call for the military strike came after the official announcement of the poll result in Iran prompted widespread protests across the country as opposition supporters took to the streets to protest "fraud" in the June 12 election.

Kuwaiti newspaper *al-Jarida* cited the diplomatic source as saying that the request was put forward by

Israeli Prime Minister Benjamin Netanyahu, bearing President Shimon Peres's signature as well.

The administration of President Barack Obama, however, did not take any notice of the Israeli request and consequently the operation was called off.

Tel Aviv put forward the request as it accuses Tehran -- a signatory to the nuclear Non-Proliferation Treaty (NPT) -- of pursuing a nuclear program with military objectives and argues that the use of military force is a legitimate option in halting Iran's nuclear progress.

Iran denies the Israeli claim, insisting that its nuclear enrichment program is solely directed at the civilian applications of the technology.

The US intelligence community, which issued a new assessment on Iran's nuclear activities on Friday, believes that a political decision is yet to be made in Iran for building a nuclear bomb.

The review by the State Department's Bureau of Intelligence and Research also contends that despite Iran's progress toward producing enriched uranium, Tehran will not be technically capable of producing weapons-grade material before 2013.

More proof the Jews are trying to start World War III, just like the first two world wars. The Jews are a war-people, full of hatred and contempt for non-Jewish people. We may have just doomed the world by permitting them to set up a "Jewish state." There has been nothing but turmoil and chaos ever since the creation of Israel and the Jewish-takeover of Western nations and economies. Wake up.

The attack on Iran is October as it has been for a year now. You can already see the military equipment moving and soldiers training in preparation for this Swine Flu Martial Law, war with Iran, possible false flag attack on the U.S. for WW3, and resulting stock crash to grab the rest of the retirement funds and housing, capping off the 1,2,3,4,5,6,7 punches to the people. Why do you think they plundered this country so efficiently these last ten years.

I highly doubt they were planning on attacking during the pathetic coup attempt by Israel, Britain and the United States. That was purely to see if they could get some "green sprouts" to come up by controlling the government with good old fashion infiltration of a Western backed puppet more than happy to sell out his people for cash.

"Do they really control the media? Do they really control the banks and economy? Do they really commit atrocities against the Palestinians?" With a little research we learn that all of the CEOs of media and Hollywood are Zionist, they control the Federal Reserve and banking and, yes, they did commit war crimes against the Palestinian civilians. Add to this the fraud, usury and trafficking of children to sell their organs and the case is made.
